My Perspectives

At Home Guidelines

The following at-home learning information is intended to provide students and families with the expectations and/or content of each unit, but it is not representative of all instructional content within the student's ELA classroom. Secondary students and parents of secondary students are encouraged to use these items as a resource and guide to support at-home learning with the understanding that the teacher maintains autonomy and discretion for how to best serve students within the approved curriculum. As such, a vital component of the at-home learning process is still daily connection through TEAMS to ensure the student remains up to date on specific classroom instruction.
