

## Single Sign-On technology allowing teachers and students access to everything they need with just one login!

Dear Parents,

ClassLink is our district's single sign-on platform and allows teachers and students to use one username and password to access everything they need. ClassLink provides faster, easier access to digital education resources that your children need to be successful at school and at home.

Your child can access ClassLink in two different ways - either on a computer or a mobile device. Please follow the below directions to have your child get signed in!

### Here is how to help get your child started on a computer:

1. Go to this website:  
<https://launchpad.classlink.com/santarosa>
2. Click the blue button: **Click Here to Sign In.**
3. Enter the student's login username (district 57#) and password. If you do not know this information, contact your student's teacher for support. Click **Sign in.**
4. A message will prompt you to install an extension when accessing applications.

### Here is how to help get your child started on a mobile device:

1. Download the appropriate app:  
[iOS](#)  
[Google Play](#)
2. Click the arrow in the top right corner to search for and choose **Santa Rosa County School District.**
3. Click **Sign in with ADFS.**
4. Enter the student's login username (district 57#), password. If you do not know this information, contact your student's teacher for support. Click **Sign in.**

Important: Not all ClassLink applications work well in the mobile ClassLink app. In some cases, you may need to download a specific iOS or Google Play app for a learning resource.

ClassLink is a safe, secure way for students to connect with applications and files. The software does not collect or share any personal student information, which is important to us. Best of all, it is very easy to use and will be a great resource for teachers and students.

**Thank You!**
