

Welcome to Your **Learning Academy**

We have created a specialized series of online training courses just for you. These courses will show you how to successfully use the tools and resources of your program.

Course Included (but not limited to):

- * Get to Know your Program
- * Model Lesson (K-AGA Math Only)
- * Assignments, Reports and Q&A

For administrators (currently K-AGA Math Only):

- * Administrator Training
- * Data Deep Dive

Each Course in the series provides you with an understanding of program content through explanation, examples, video demonstrations, and interactive online explorations.

You course work will automatically save as you go, you can exit and return to your courses at any time. You will receive a certificate following the completion of each course.

Materials to have nearby while working through a course:

- * Your **Teacher's Edition**
- * Your **Log in to your Digital Experience**

Ready to Get Started?

Select your program below to begin your training
